## 28 P.10 Prefabronze

### DACHPANEEL FX.12

### PREFA

<http://www.prefa.ch/de/> | [office.ch@prefa.com](mailto:office.ch@prefa.com)

**Type:** Metal | Facade

700 × 420 mm

Cleveres Design trifft auf technische Raffinesse! Durch die unregelmässige Kantung entsteht (je nach Sonnenstand) ein lebendiges Spiel mit Licht und Schatten.

Doch die Kantung hat noch eine wichtigere Funktion: Sie versteift die Paneele und sorgt für noch grössere Widerstandskraft. Eine weitere Besonderheit ist der konische Winkelfalz, welcher gleich mehrere Nutzen hat.

|                               |                                                                                                                                                                                                                                                                                                                                                                                         |

#### Important legal notice regarding the use of the mtextur database and the mtextur datasheet

The mtextur database and the mtextur datasheets present a selection of digitally processed building materials, categorised by material type, subtype, colour range, field of application, manufacturer and product line. All content is provided for information and planning support purposes only and is non-binding. The colour appearance, pattern, surface characteristics and scale accuracy of the CAD & BIM textures may differ from the actual products supplied by the respective manufacturers. A binding or exact match cannot be guaranteed. For binding samples, technical specifications and product-specific details, only the respective manufacturer or distributor shall be authoritative. Please contact them directly for such information (enquiry link provided with the material). The content is compiled with due care and to the best of our knowledge. However, errors, omissions or deviations cannot be entirely excluded. The publisher of the mtextur database, h2c GmbH, as well as the listed manufacturers and distributors, accept no liability for the accuracy or completeness of the information provided, nor for any direct or indirect damages or consequential losses arising from the use of the mtextur database or the mtextur datasheets. Liability shall apply exclusively in cases of wilful misconduct.

|                      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |

| Characteristics Info | Die PREFA Fassadenpaneele FX.12 sind innovative Designelemente, die durch ihre vielen Längs- und Querkantungen (Knitterlook) eine besonders auffällige und frische Oberflächenstruktur bieten. Die Optik verändert sich zudem je nach Lichteinfall und macht dadurch jedes Objekt zu einem Unikat. Der mögliche Einsatz von zwei unterschiedlichen Paneelgrößen (FX.12 Fassadenpaneel kurz und lang) verstärkt nochmals den asymmetrischen, individuellen Look Ihrer neuen Hausfassade. Besonders kreativen Bauherren und Architekten stehen die Fassadenpaneele zudem in etlichen Farben zu Verfügung. |
