## 28 P.10 Prefabronze

### DACHRAUTE 44 × 44

### PREFA

<http://www.prefa.ch/de/> | [office.ch@prefa.com](mailto:office.ch@prefa.com)

**Type:** Metal | Roof

OBERFLÄCHE P.10

Minimales Gewicht, höchste Effizienz im Handling: Die Dachraute 44 × 44 ermöglicht eine rasche und kostengünstige Montage.

|                               |                                                                                                                            |

#### Important legal notice regarding the use of the mtextur database and the mtextur datasheet

The mtextur database and the mtextur datasheets present a selection of digitally processed building materials, categorised by material type, subtype, colour range, field of application, manufacturer and product line. All content is provided for information and planning support purposes only and is non-binding. The colour appearance, pattern, surface characteristics and scale accuracy of the CAD & BIM textures may differ from the actual products supplied by the respective manufacturers. A binding or exact match cannot be guaranteed. For binding samples, technical specifications and product-specific details, only the respective manufacturer or distributor shall be authoritative. Please contact them directly for such information (enquiry link provided with the material). The content is compiled with due care and to the best of our knowledge. However, errors, omissions or deviations cannot be entirely excluded. The publisher of the mtextur database, h2c GmbH, as well as the listed manufacturers and distributors, accept no liability for the accuracy or completeness of the information provided, nor for any direct or indirect damages or consequential losses arising from the use of the mtextur database or the mtextur datasheets. Liability shall apply exclusively in cases of wilful misconduct.

|                      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |
|----------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Weight               | 2.6 kg/m <sup>2</sup>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            |
| Characteristics Info | Mit der PREFA Aluminium-Dachraute im Format 44 × 44 cm setzt PREFA erneut einen starken innovativen Kreativimpuls. Die vergrößerte Flächenstruktur erlaubt das freie Spiel aus traditioneller Form und moderner Akzenten, ohne auf höchste Langlebigkeit und extreme Witterungsbeständigkeit zu verzichten. Die neuartige PREFA Desgin-Dachraute beeindruckt durch ihr minimales Gewicht ebenso wie durch höchste Effizienz im Handling: Die integrierten Befestigungsleisten ermöglichen eine rasche und kostengünstige Montage der Dach- und Fassadenelemente. |
