**Type:**    **Stone | Flag / Flagstone**

Muster 1 | Gartenplatten mit Holzstruktur

Eine Optik wie Holz, aber dauerhaft wie Beton. LENIA ist eine neue Produktlinie mit Holzstruktureptik. Das Sortiment besteht aus einer brettähnlichen, rechteckigen Platte, einer runden Scheibe als Schrittplatte, Palisaden, Blockstufen und einem Hocker in der Form eines Baumstammes. Der Effekt ist verblüffend echt.

|                               |                                                                                                                                                                                                                                                                                                                            |
